

Opencart 1.5.x module installation manual

You will need API keys for your module to connect to Swipe. API keys are available in [Swipe's administration panel](#) - you will need to [register a free account](#) to get keys you can test your integration with. After that you can proceed with the rest of this manual.

To start accepting real-money payments, you will need to [apply for a verified account](#). Once your account is verified, you can simply replace testing keys with live keys and you're all set for accepting live purchases.

1. Upload the contents of module archive (see Image 1) into Opencart 1.5. root folder.

3. Find Swipe module and install it (see Image 3).

Image 3: Swipe module installation button

4. Now edit the module settings (see Image 4).

Image 4: Swipe module settings editing button

5. The module provides several parameters (see Image 5) that should be filled out for it to work correctly:
- Public key** - available in [swipegateway.com company administration panel](http://swipegateway.com/company-administration-panel), “API” section (see Image 6).
 - Private key** - available in [swipegateway.com company administration panel](http://swipegateway.com/company-administration-panel), “API” section (see Image 6).
 - Status** - Indicates whether the module is active on your webpage. Choose “Enabled”.
 - Order status before payment** - order status before your client has paid (usually “Processing” or “Pending”).
 - Order status after payment** - order status after your client has paid (usually “Complete”). Status is set only after swipegateway.com responds to Opencart that payment has been received.

A settings form for the Swipe module. The header shows the 'Swipe' logo and the text 'Swipe'. Below the header are five rows of settings, each with a label and a corresponding input field:

- Public key:** A text input field.
- Private key:** A text input field.
- Status:** A dropdown menu with 'Enabled' selected.
- Order status before payment:** A dropdown menu with 'Processing' selected.
- Order status after payment:** A dropdown menu with 'Complete' selected.
